SUMMARY

I am a rising junior at UT Dallas majoring in software engineering on a full-ride academic scholarship. I have internship experience in Java backend development, strong academic performance, and projects in iOS, web development, and cloud technologies. I am seeking a Summer 2027 computer science internship.

EDUCATION

University of Texas at Dallas, Richardson, TX

May 2028

Bachelor of Science in Software Engineering

GPA 3.96

- National Merit scholar on a full-ride scholarship
- Hobson Wildenthal Honors College
- Relevant Coursework: Data Structures and Algorithms, Computer Architecture, Discrete Math

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Swift, SQL, Kotlin

Tools: IntelliJ, PyCharm, Xcode, AWS, GitHub, Microsoft Office

Skills: Front and Back End, Analytical and Problem-Solving skills, Self-Motivated, Adaptable

Certifications: AWS Certified Cloud Practitioner, AWS Certified AI Practitioner, GitHub Foundations

WORK EXPERIENCE

Cred.ai, Philadelphia, PA

July 2025 – September 2025, June 2026 – September 2026

Software Engineering Intern

- Joined Philadelphia-based startup providing fintech services, including Visa credit cards, with the mission of helping customers reach their financial goals.
- Worked on backend software, improving service performance by converting blocking code to a multithreaded architecture using virtual threads in Java.
- Employed generative-AI tools to assist in coding, including GPT and Claude, through the IntelliJ AI Assistant.
- Presented project to panel of company leaders from the business and technology teams at the conclusion of the internship.
- Received a return internship offer to complete a new project for the Summer of 2026

Wegmans, Collegeville, PA

April 2022 – Present

Front-End Associate

- Help customers during purchases and throughout the entire grocery shopping experience.
- Manage and lead fellow associates in cart-to-curb delivery service.

ACADEMIC & PERSONAL PROJECTS

Goals Application, Personal

February 2026 – Present

Tools Used: Xcode, GitHub, GitHub Copilot, Swift, PostgreSQL, Docker

- Developed an application to help people monitor and track their goals, habits, and schedule.
- Integrated AI into the application to generate recommendations, offer personal breakdowns of habits and propose daily and weekly schedules to help users achieve their goals
- Utilized Claude through GitHub Copilot to help develop, debug, and produce clean descriptions of all updates

Inventory Tracker, SW CraftWorks

June 2022 – September 2022

Tools Used: MongoDB, Express, React, Node.js

- Created a web-based inventory tracker for SW CraftWorks to keep track of items required to make products.
- Offered suggestions on items to be restocked, provided visuals on available products to be created given inventory, and pushed notifications when inventory was low.
- Provided a clean UI/UX for the company to quickly and efficiently manage CRUD operations on products
